

福島 博 業績目録

1. 論文

1. H. Fukushima: 2-Sylow subgroup の index 2 の subgroup に関する fusion について, 数理解析研究所講究録 277 有限群論 (1976), 79-84.
2. H. Fukushima: Finite groups with weakly closed dihedral, generalized, quaternion subgroups, 第 23 回代数学シンポジウム報告集 (1977), 77-83.
3. H. Fukushima: Weakly closed cyclic 2-groups in finite groups, J. Math. Soc. Japan, Vol.30, No.1 (1978), 133-137.
4. H. Fukushima: Finite groups admitting an automorphism of prime order, 数理科学講究録 325 置換群論 (1978), 30-33.
5. H. Fukushima: Finite groups admitting an automorphism of prime order l , Hokkaido Math J. Vol.VIII, No.1 (1979), 103-114.
6. H. Fukushima: Weakly closed dihedral 2-subgroups in finite groups, J. Math. Soc. Japan, Vol.32, No.1 (1980), 193-200.
7. H. Fukushima: 自己同型と有限群の可解性について, 「六甲シンポジウム」群論報告集 (1980), 116-119.
8. H. Fukushima: Finite groups admitting an automorphism of prime order fixing an elementary abelian 2-group, Gunma Journal of Arts and Science, Vol.15 (1981), 199-209.
9. H. Fukushima: Finite groups admitting an automorphism of prime order fixing a 3-group, J. Algebra, Vol.77, No.1 (1982), 247-260.
10. H. Fukushima: Finite groups admitting an automorphism of prime order fixing an abelian 2-group, J. Algebra, Vol.80, No.1 (1984), 1-23.
11. H. Fukushima: Solvability of finite groups admitting S_3 as a fixed-point-free group of operators, Hokkaido Math J. Vol.XV, No.1 (1986), 47-70.
12. K. Ohtake and H. Fukushima: A remark on Higman's results about separable algebras, Tsukuba J. Math, Vol.10, No.1 (1986), 29-34.
13. H. Fukushima and K. Ohtake, On groups G with the nilpotency indices of $J(kG)$ coincide with the lower bounds of Wallace's inequality, Gunma Journal of Arts and Science, Vol.22 (1988), 59-64.
14. H. Fukushima and K. Ohtake, On the construction of algebra semigroups, Gunma Journal of Arts and Science, Vol.23 (1989), 109-123.
15. H. Fukushima: On groups G of p -length 2 whose nilpotency indices of $J(kG)$ are $a(p-1)+1$, Hokkaido Math J. Vol.XX, No.3 (1991), 523-530.
16. H. Fukushima: p -radical group と radical の nilpotency index について, 数理解析研究所講究録 867 有限群とその周辺 (1994), 53-60.
17. H. Fukushima: p -Lengths of p -radical groups are unbounded, J. Algebra, Vol.168, No.3 (1994), 853-863.

18. H. Fukushima : On the connection between the nilpotency indices of $J(kG)$ and $J(kP)$, Science Reports of the Faculty of Education, Gunma University, Vol.43 (1995), 35–40.
19. H. Fukushima : On p -radical groups G and the nilpotency indices of $J(kG)$, Osaka J. Math, 31 (1994), 773–785.
20. H. Fukushima : On p -radical groups G and the nilpotency indices of $J(kG)$ II, Osaka J. Math, 33 (1996), 637–648.
21. H. Fukushima : On the existence of p -blocks of defect 0, Science Reports of the Faculty of Education, Gunma University, Vol.45 (1997), 9–15.
22. H. Fukushima : Some results on p -blocks of p -radical groups, Science Reports of the Faculty of Education, Gunma University, Vol.46 (1998), 9–13.
23. H. Fukushima : Group-theoretical characterlization of p -radical groups, Science Reports of the Faculty of Education, Gunma University, Vol. 47 (1999), 7–11.
24. H. Fukushima : On the existence of p -blocks of defect 0 in p -nilpotent groups, J. Algebra, Vol. 222, No.2 (1999), 747–768.
25. H. Fukushima : On the existence of p -blocks of defect 0 in solvable groups, J. Algebra, Vol.230, No.2 (2000), 676–682.
26. H. Fukushima and M. Satoh, K. Ohtake : Representations of groups of order less than 32, Science Reports of the Faculty of Education, Gunma University, Vol.47 (2002), 1–39.
27. H. Fukushima : M -groups of Fitting length three, J. Algebra, Vol.268, No.1 (2003), 1–7.
28. H. Fukushima : Hall subgroups of M -groups need not be M -groups, Amer. Math. Soc, Vol. 133, No.3 (2005), 671–675.
29. H. Fukushima : Products of two faithful irreducible characters, Science Reports of the Faculty of Education, Gunma University, Vol. 55 (2007), 1–4.
30. H. Fukushima : Irreducible products of characters of finite groups with Fitting heights < 5 , Science Reports of the Faculty of Education, Gunma University, Vol.56 (2008), 1–4.
31. H. Fukushima : Products of irreducible characters of finite solvable groups, Science Reports of the Faculty of Education, Gunma University, Vol.57 (2009), 1–4.
32. H. Fukushima : Irreducible products of characters of solvable groups, J. Algebra, Vol.321 (2009), 312–315.
33. H. Fukushima : Modules with large centralizers, Science Reports of the Faculty of Education, Gunma University, Vol.58 (2010), 5–7.
34. H. Fukushima : Representations of finite solvable groups, Science Reports of the Faculty of Education, Gunma University, Vol.60 (2012), 1–4.
35. H. Fukushima : p -Solvable groups all of whose irreducible modular characters have p -power degrees, Science Reports of the Faculty of Education, Gunma University, Vol.62 (2014), 1–4.

36. H. Fukushima : On hyperbolic modules, Science Reports of the Faculty of Education, Gunma University, Vol.64 (2016), 11-14.
2. 著書 (共著)
 1. 福島 博, 他: 基礎微分積分学 (第 4 章担当) 1987 年 朝倉書店 (全 143 頁)
 2. 大竹公一郎, 福島 博: 初等線形代数 2003 年 牧野書店 (全 158 頁)
 3. 福島 博, 他: 線形代数学 20 講 (第 3 章担当) 2003 年 朝倉書店 (全 166 頁)
3. その他
 1. 福島 博: p -radical group と $J(kG)$ の nilpotency index について, 第 5 回有限群論草津セミナー報告集 1993 年, 21-24.
 2. 福島 博: p -Solvable groups all of whose irreducible modular representations have q' -degrees, 第 7 回有限群論草津セミナー報告集 1995 年, 31-34.
 3. 福島 博: p -可解群における defect 0 の block の存在について, 第 9 回有限群論草津セミナー報告集 1997 年, 25-29.
 4. 福島 博: 可解群における defect 0 の p -block の存在について, 第 11 回有限群論草津セミナー報告集 1999 年, 31-34.
 5. 福島 博: 群環のブロックの不足群に関する研究 (研究課題番号 10640004), 平成 10 年度~平成 11 年度科学研究費補助金 (基盤研究(c)) 研究成果報告書 2000 年.
 6. 福島 博: M -群について, 第 14 回有限群論草津セミナー報告集 2002 年, 44-47.
 7. 福島 博: M -群の Hall 部分群について, 第 16 回有限群論草津セミナー報告集 2004 年, 41-44.
 8. 福島 博: Irreducible products of characters of M -groups, 第 19 回有限群論草津セミナー報告集 2007 年, 38-40.
 9. 福島 博: 奇数位数の M -群に関する研究 (研究課題番号 17540009), 平成 17 年度~平成 18 年度科学研究費補助金 (基盤研究(c)) 研究成果報告書 2007 年.
 10. 福島 博: 可解群の表現について, 第 23 回有限群論草津セミナー報告集 2011 年, 31-33.
